Professional Summary

Full Stack Developer with 3+ years of experience building web applications using **Node.js, React.js, TypeScript, JavaScript, Express.js, REST APIs, MongoDB, MySQL, and PostgreSQL**. Experienced in developing scalable APIs, reusable React components, authentication, role-based access control, database integrations, responsive dashboards, and end-to-end application features.

Technical Skills

Languages: JavaScript, TypeScript, Java, PHP, SQL, HTML, CSS
Frontend: React.js, Redux Toolkit, Vite, Tailwind CSS, React Query, Zustand, Recharts
Backend: Node.js, Express.js, REST APIs, JWT, RBAC, API Integration
Databases: PostgreSQL, MongoDB, MySQL, Drizzle ORM
Tools: Git, GitHub, Postman, Jira, Figma, Render, Vercel, WordPress
Core: Data Structures and Algorithms, OOP, DBMS, Authentication, Authorization, Agile

Professional Experience

Piquota Digital Solutions Aug 2025 – Aug 2026
Software Engineer *Remote*

- Developed scalable **REST APIs using Node.js and Express.js** with reusable backend services and API integrations.
- Built responsive **React.js** applications using reusable components, state management, forms, data visualization, and API-driven workflows.
- Integrated frontend applications with backend APIs and databases while debugging functional, integration, and UI issues across the full stack.
- Collaborated using Git, GitHub, Jira, code reviews, and Agile practices to deliver production-ready features.

Forbes Advisor Jun 2023 – Dec 2024
Associate Software Engineer *Chennai, Tamilnadu*

- Engineered and supported WordPress platforms for digital properties including **USA Today, CNN, and Forbes Advisor**.
- Developed custom **Gutenberg blocks, reusable templates, themes, and plugins** using PHP, JavaScript, JSX, and React.js.
- Built reusable responsive components using React.js, JavaScript, HTML, CSS, and Tailwind CSS.
- Collaborated with designers and developers to implement Figma designs, troubleshoot production issues, and improve web experiences.

Forbes Advisor Dec 2022 – Jun 2023
Full Stack Developer Intern *Remote*

- Developed and maintained web applications using **PHP, JavaScript, React.js, HTML, and CSS** in an Agile environment.
- Implemented reusable UI components and contributed to WordPress theme and plugin development.

Projects

MindTrack – Employee Wellness Platform [Live Demo] [GitHub]

- Built a full-stack wellness platform with dedicated **Employee, Manager, and HR Admin portals** for wellness tracking, analytics, team insights, and organizational management.
- Developed **Node.js/Express REST APIs** using TypeScript, PostgreSQL, and Drizzle ORM with authentication, authorization, validation, and reusable services.
- Implemented **RBAC, JWT authentication, audit logging, alerts, user management, and permission-based workflows**.
- Built responsive React dashboards using **Vite, Tailwind CSS, React Query, Zustand, React Hook Form, and Recharts**.

E-Cart – MERN E-Commerce Application [Live Demo] [GitHub]

- Developed a full-stack MERN e-commerce application with **product listing, cart, checkout, and transactional email notifications**.
- Built RESTful APIs using Node.js and Express.js and integrated MongoDB for application data management.
- Developed responsive React.js interfaces and reusable components for product browsing and checkout workflows.

Education

Vellore Institute of Technology, Vellore
B.Tech in Computer Science and Engineering – Bioinformatics — GPA: 7.89/10

Achievements

- Solved **100+ LeetCode problems** while strengthening Data Structures and Algorithms and problem-solving skills.
- School topper among rural government schools in Class 12 and received a merit scholarship under the STARS scheme at VIT.
